Personal Profile:

I am a passionate psychologist and a special educator. I love working with children. I have specialized in counseling, Remediation, ABA practice and special education. I am also an CBT practitioner. I usually use CBT in counseling, when it comes to young children giving them the thought awareness and bringing them the change I felt difficulty. When I was looking for an alternative method of treating the children with disabilities, social and emotional difficulties, I found play therapy is more interesting and I was sure it will work with children. I am implementing play therapy with all kind of counseling with kids, I can see the results very faster.
