Personal Profile:

I am a doctorate in psychology, and have worked in the area of early intervention and ECCE for the past 20+ years. I started my career with Spastics Society of karnataka, and have worked as an individual consultant since 2009, with NGOs engaged with the ICDS and government primary schools. At this time my work ranged from ECCE to primary education and inclusive practices. Currently I am founder director of Nidhi Early Interventions, where we provide quality support services for children with special needs. Our plan is to integrate and offer play therapy as a part of the holistic intervention program for children.
